to: Patricia Guerrero  
CA. Chief Justice,

This is Cedric Johnson once again. I come to the Court once again to reinforce that a massive crimes have been & continue to be perpetrated against me. Every day that I continue to do put more of a blight on the Court & Constitution.

I cannot say it enough that all the evidence support that I am innocent. Also, that a obvious crimes, have been & continue to be perpetrated against me. From my intentional, false, malicious, & vindictive prosecution (A fundamental, Treason, & Miscallings of Justice).

I am writing to the CA. Supreme Court in the name of the Constitution & rule of law, that the Court ask & request a law professor take on my case. Since 2005-2022 I have asked over 19 law professor to take on my case (PROP 66 do not trump - in the interest of justice).

Thank you for your time & understanding

RESPECTFULLY  
Cedric Johnson

P.S.

Because this letter concern my representation  
seeking the district attorney is not necessary.
